BiRÒ Box

Birò Box, the first 100% electric, 4-wheeled personal commuter with up to 300 liters of storage space and removable battery. Ultra compact, eco-friendly, silent. Allowing you to travel freely in the restricted traffic zones of many cities and park easily in scooter spaces.

I'm Easy. **BIRÒ**

Positive driving.

There is no freedom without safety. That is why Birò Box is fitted with 4 disk brakes, and its frame is manufactured in steel tubing to make the cabin as strong and resistant as possible. The headrest, the armrests on both sides and the side doors provide comfort in an ultra-compact space, as well as protection against all weather conditions. The roof and rear windscreen can be opened, and the side doors removed to allow light and air in during the hottest seasons. Maximum freedom for a total driving vision: Birò Box has a cabin with wide transparent surfaces which offer you wide views, guaranteed in any condition by the defrost grid windscreen. Enjoy the city, Birò Box is the personal commuter for anyone who has clear ideas about mobility.

Free to Move.

Birò Box is the solution for your daily commutes, a four-wheeled electric vehicle that saves you time and stress, combining work and leisure. With Birò Box, inner-city traffic is no longer a problem. Its compact dimensions allow for easy parking in scooter spaces and easy access to the restricted traffic zones of many cities. Equipped with useful internal compartments, it also boasts a storage space that exceeds the 300 litres*, Birò Box has been designed to be small yet sociable with two seats, side by side, so you can travel with whomever you choose.

1 Birò Box = 1 scooter space

4 Birò Box = 1 standard parking space

* With maxi battery.

Less is more.

Fun and comfortable, Birò Box is keyless and uses Birò Card to open the driver side door and start the engine. Birò Box is fitted with two brushless 100% electric motors to guarantee zero emissions, zero noise pollution and zero petrol consumption. There are so many advantages to a personal commuter that is small, practical and intelligent.

Recharge your Energy.

Easy move and Re-Move.

Birò Box's energy is always with you, because it is the only 4-wheeled personal commuter to be fitted with the Re-Move removable battery system. Once your Birò Box is parked, it is easy to remove the battery unit and take it to your house, your office, or wherever is most convenient, to recharge your batteries with ease, meaning that you can drive further in a single day. This is a very useful system if you don't have a personal parking space, but it also helps you to organise your travel as efficiently as possible.

Power of Freedom.

Which type of energy works best for you?
Now you can choose the battery
whose battery life and recharge time
suit your lifestyle, and your personal
travel requirements.

LITHIUM Re-Move (removable)

Battery life: up to 55km*
Charge time: max 2-4h
